

Deluxe

FREIGHT

Since its inception in 1996, Deluxe Freight had a vision: to provide the highest quality of customer service to its customers. With over 20 years of logistics experience, Deluxe Freight Inc provides the Cayman Islands with reliable, effective, and convenient transportation solutions. Whether it is by OCEAN, AIR, or LAND, the objective is to provide the customer with a complete line of service options in which their cargo can be handled. Since opening its doors, the commitment has always been to the client, always striving to exceed all their expectations.

Why Deluxe Freight, Inc?

Simple, because we offer a unique business model that makes sense. Deluxe Freight, Inc was born out of a unique concept – to bring together under one platform a full logistics service provider to the Cayman Islands. As a customer, you will not have to worry about coordinating any of your transportation needs. You simply notify us and we will take care of the rest.

Our Mission

Since our inception, our organization's leadership has embarked in the mission of building a one of a kind Freight Forwarder. Strategically located in Doral, Florida Deluxe Freight, Inc has quickly grown into one of the most highly regarded, independent freight forwarding, cargo warehousing and consolidation companies in the Southeastern United States. We can fulfill all your transportation needs whether by ocean, air or ground, offering solid reliable services.

LAND . AIR . SEA

Our Vision

Our goal is to become the most unique and most relevant Freight Forwarder to the Cayman Islands, not the biggest. Our customer composition and growth has been carefully planned since day one to attract exclusively customers in the Cayman Islands.

This model has already proven to be a successful one. We currently work with over 400 customers in Grand Cayman that could testify to the quality of our services.

Grow With Us

Our organization has been built under old fashion principles – creating our customer base one customer at a time. Thus, our focus has been on developing a successful enterprise based on a gradual but solid growth. This has been part of the secret to our success. Our measured and discerning choices have systematically transformed our organization into a fertile ground for symbiotic and lasting relationships.

The Future

We are completely cognizant that in order to meet the needs and interest of our ever growing customer base, particularly of the caliber and complexity that characterizes ours; we must not just grow but evolve. More of the same will just not do. Plans are on their way to take our business to a more sophisticated platform; one that would permit us to introduce newer features and functionality as well as to increase the overall interaction experience among our customers. We are truly excited about our organization's future and the endless possibilities that await us.

*"The future belongs to those who see possibilities
before they become obvious."*

J. Scully

OCEAN

Deluxe Freight offers multiple ocean transportation services to satisfy our customers' shipping needs. Whether requiring our LCL (less-than-container-load) or our FCL (full-container-load) service, our customers are offered a secure warehouse facility, pickup, documentation, transit arrangements, and much more. Both services provide a consistent and affordable way to ship your cargo.

AIR

Deluxe Freight provides reliable air cargo transportation to the Cayman Islands for those clients seeking a faster, next day, delivery of their cargo. From the moment your cargo arrives in our facility, it is processed, prepared, and submitted for air transportation. Deluxe Freight's air shipments, being affordable and dependable, allow our customers the option to have their cargo expedited quicker, creating a value to our service, which customers have come to appreciate.

LAND

Deluxe Freight now offers its customers a service usually not associated with the offerings of a typical freight forwarder: domestic inland trucking. We have found, through our years of experience that customers normally don't control or decide who will provide the transportation from point of purchase to our facility, which translates to higher purchase costs. We have negotiated extremely competitive rates with the biggest names in LTL Inland Trucking and small inland parcel (FedEx Freight, Roadway, UPS, SAIA, Southeastern, DHL, etc), allowing us to provide the most complete and economic way to get your cargo from purchase point to our warehouse.
